Re: CBC Awarded VCC Media Award

Dear Ms. Celli,

On behalf of the Board of Directors of Vaccine Choice Canada, I am writing to inform you CBC's *Ontario Today* show has been awarded our 2016 media award. The award titled 'Adding Insult to Injury' recognizes media entities that continue to disseminate deceptive, distorted and dishonest information pertaining to the topic of vaccinations in Canada.

CBC's Ontario Today earned the award as a result of its unwillingness to address incorrect information and misrepresentations made on the program of September 15, 2016 entitled, 'Vaccines and Who Should Get Them'.

CBC failed to make a public correction of a number of inaccurate statements made by guest Dr. Leslie Barron. Nor did the CBC apologize for any misunderstanding this misinformation may have caused in spite of being provided with corrected information and documentation by Vaccine Choice Canada.

This failure by the CBC undermines confidence in Canada's national broadcaster as a credible source of information as pertains to the topic of vaccinations. These actions are a disservice to all Canadians, especially those children neurologically injured and killed by vaccines.

A hard copy of the award will be mailed to you and award winners will be posted on the Vaccine Choice Canada website.

Sincerely,

Edda West, President of Vaccine Choice Canada

cc. Esther Enkin, CBC Ombudsman
