

# Know the Facts

## What first responders and frontline workers need to know about the COVID-19 vaccine

Many members of our communities have deep concerns about our first responders and frontline healthcare workers being targeted to receive the initial deployment of the COVID-19 vaccine.

**Please help share an important letter from VCC with police, healthcare workers, and first responders. Let them know about the risks before they make their vaccination decisions.**

**After a thorough review of the available scientific evidence, it is our contention that the Pfizer and Moderna vaccines authorized for use in Canada carry substantial risks.**

Find the letter here: [www.bit.ly/Get-Informed](http://www.bit.ly/Get-Informed)
