

CHOICE INSIDER

January 25, 2023

Message From Ted

Dear VCC Community,

Have you noticed that the dialogue has changed in recent months? No longer is the conversation primarily about the genetic injections, masking or social distancing. Rather, the conversation is a much bigger one, one that affects all of us. The conversation is about the future of humanity.

This is no longer about a pandemic virus. What we are facing is an effort to control all of humanity by a small group of globalists and technocrats. These predators have no respect for humanity. To them, we are less than cattle in the field.

Their vision, however, will not succeed! There is a wave of change coming that is unlike anything humans have ever experienced! It will tear apart every corrupt institution so they can be rebuilt from a higher consciousness. It will vanquish the greed and corruption, the fear and hate, the oppression and control of humanity at every level.

This wave will be guided by what Dr. Charles Hoffe considers the values of the freedom movement: i) love of freedom; ii) love of humanity; and iii) love of righteousness and truth. The changes will not be easy or without consequences, yet I can think of nothing more important than defending freedom and truth and the raising up of humanity!

Humanity is involved in a transformative experience. We are like the caterpillar metamorphosing into a butterfly. The result is

beyond the imagination of the caterpillar! And such is our future.

Ted

Wednesday

7 pm – 8:00 pm EST

VCC-CHA Live Wed

**Dr. Hoffe, Dr. Malthouse
and Dr. Trozzi**

Punished for Asking Questions

Hear from three Canadian doctors who followed their oath to Do No Harm. Many medical professionals have been silenced by the threat of loss of licensing and the destruction of their careers by their regulatory Colleges. Drs. Hoffe, Malthouse and Trozzi are engaged in legal proceedings against their Colleges for the right to speak freely and ask questions about public health policies that impact all Canadians. Are our medical regulatory Colleges fulfilling their mandate to protect the public or have they been weaponized by our government to silence dissenting voices?

VCC-CHA Live Wed

Dr. Andrew Wakefield

In Conversation with Dr Andrew Wakefield.

Dr Andrew Wakefield, is a man of courage and integrity. He paid a heavy price for questioning the safety of vaccines, with the loss of his medical license and livelihood. In response, he forged a new path as an award- winning filmmaker, who continues to share the truth about vaccines through his films, *Vaxxed: From Cover-up to Catastrophe*, *1986: The Act, Who Killed Alex Spourdalakis?* and most recently, his collaboration with Robert F Kennedy titled, *Infertility: A Diabolical Agenda*.

Title: “Freedom Leader”

Feature Article

by Alan Brough,

Executive Director, Vaccine Choice Canada

What Has Killed More People, World War Two or the Covid Vaccine?

We all know that it is not the big statistics that really made a deep emotional impact on people that will change personal behaviour. Instead, it is the personal, compelling and hugely emotional stories of individual victimization, struggle and ultimately tragedy that help people do something about the horrors unfolding around them.

Survey Results

from Last Week

What do you think are the core values of the freedom movement?

- Self-determination, Sovereignty over one's body, human rights, and putting those criminals to jail.
- Personal sovereignty including body autonomy.
- Personal accountability and responsibility.
- Democracy.

- Opposing authoritarian oppression, maintaining respect for civil and human rights, return of morality and ethics to politics, science, and health care; institutions' respect for truth and human dignity.
- Authentic Human Beings providing leadership, resources and hope to so many.
- Personal freewill choice, health choices, freedom of religion.
- Deep respect for the sacredness of all life.
- to protect our rights protect our families and human kind in general, , freedom of choice regarding vaccines, protect our country and to be a light and inspiration for other countries to do the same .
- Stay out of my way as I traverse this beautiful life on this beautiful planet. I don't want your interference but I will ask for help when I need it from like-minded.
- We should be free to think for ourselves, and free to base our decisions on facts (not narratives dictated by someone else).
- Love, Compassion, Truth and Unity
- COURAGE
Integrity
Believe in no one but yourself
Love Life

Jutta

- Honesty, courage, insight and compassion.
- Freedom of Speech and Freedom of Choice.
- Intelligence – the ability to think critically,
Integrity – the moral fortitude to seek &
defend truth, and first & foremost Courage –
the willingness to speak up and act.
- Taking responsibility for our lives instead of
always blaming others for our woes and
demanding that Big Daddy Government make
everything all okay for us, like 2-year-olds with
a scraped knee. At least, I hope that those are
the core values.
- Individual Sovereignty
National Sovereignty
Exposing Censorship and Propaganda
- Staying true to yourself and positive. The light
will shine on the darkness. Staying strong and
never relinquishing our Freedom. We are doing
this for the children of the Future.
- 1. Protecting our constitutional and God given
rights.
2. Truth with supportive facts
3. Integrity
4. Courage
5. Strength to endure

- The right to live free in peace and harmony in a world where people respect each other and a return to position of love instead of the hate we face every day right now.
- My body MY choice is the most important, followed by the freedoms guaranteed by our Charter of Rights... all of them.
- This would be impossible to narrow anything down to one or two key points, but what I am seeing is a recognition of the individuality of all individuals and encouraging all to follow their inspiration for how to participate. Some go to rally's, some have become 'truthers', and others simply do their best to create meaningful dialogue with friends and family when the opportunity arises. Seeing as none of us can say for sure what is really going on, and then prove that, this can be difficult. What with MSM controlling the narrative. So, getting back to the core value question. A core value would be respect for the sovereignty of each and every one of us, whether they swing this way or that. Love is a key core value, too. Being able to love others, without judgment or condemnation – we have all walked different paths to get to this point.
- Keep up the great work Ted and all. You are deeply appreciate... xoxo

Quote of the Week

We are now at a crossroads. We can choose the broad road of obedience, content with the fleeting comfort from handing over our autonomy. Or we can choose the narrow road, leave aside our individual interests for the broader interests of humanity, which in the end are also the interests of each of us.

We must all join forces in the fight for the right to express ourselves, to think, to doubt, to come together in the public square to discuss, reason and shape society.

This battle will not be easy, and there are many indications that it will soon intensify. But surrender is not an option, for what is at stake is a future fitting for humanity. We must fight for it in brotherhood, armed with compassion, courage and integrity.

**Thorsteinn Siglaugsson,
Chairman of the Icelantic Free
Speech Society**
