February 8, 2023

Message From Ted

Dear VCC Community,

In his essay – **Why Did So Many Institutions Fail?**

Jeffery Tucker asks an essential question: Why didn't more people speak out? Why didn't the courts work? Why didn't all the people who knew the mandates were wrong speak out when it was most necessary to do so? Tucker argues that our family, friends, and neighbors, whether in academia, government, healthcare, media or business chose fear over facts and cowardice over truth. One benefit of the COVID experience is that it reveals one's character.

The critical lesson here is to recognize the importance of moral courage in sustaining our essential freedoms. Robert F Kenney knew in 1966 that *"Few men are willing to brave the disapproval of their fellows, the censure of their colleagues, the wrath of their society."* He said, *"Moral courage is a rarer commodity than bravery in battle or great intelligence."* The Honourable Brian Peckford has often stated that, *"Democracy can only exist in a moral society."*

We thought that institutions such as the government, courts, public health, academia and media would protect us. We discovered that all these safeguards failed us. What is saving us are the doctors and nurses who are willing to suffer the wrath of their colleges, the independent media who offer uncensored speech, pastors who teach a moral code, and average citizens who refuse to

comply with mandates that violate our rights. And, of course, the truckers who modeled moral courage by remaining loving and peaceful in the face of a government – ordered military takedown.

Ted

Dr. Paul Thomas

The Assault on Informed Consent

Dr Paul Thomas, a much beloved pediatrician of over 30 years, was forced to close his medical practice in 2022 after being suspended by the Oregon Medical Board. His crime was to publish a peer-reviewed study comparing health

outcomes of patients who had been vaccinated to those who had not, the results of which were not to the Medical Board's liking. He wrote the book, *The Vaccine-Friendly Plan*, to empower families and help them make informed decisions about vaccination. He is the founder and host of the show **'With the Wind; Science Revealed'**.

Dr. Brenda Bernhardt

Are Pet Vaccines “Safe and Effective?”

If you have questions or concerns about the vaccines your pets receive, don't miss our interview with Dr Brenda Bernhardt DVM (retired). Dr Brenda will discuss some of the issues and concerns regarding conventional veterinary medicine's vaccination recommendations: dose, informed consent, frequency, antibody titers etc. and why, after 25 years practice, she decided to stand down from the veterinary association and become a pet wellness consultant. If you have friends and family who have pets, whether they are beginning to question all vaccines or not, please invite them to attend. Their pet's wellbeing may be at stake!

Title: "Punished for Asking Questions"

Feature Article

by Alan Brough
Executive Director,
Vaccine Choice Canada

Has this Covid Push Finally Alerted Parents to the Dangers of Vaccines...?

We are told by the likes of Max Igan, David Icke and Jean Nolan that the way out of this mess is for the public to collectively stand up and say, 'No more!'

The theory is that if we all simply disregard what the authorities are trying to impose upon us and ignore them, they will be powerless, as our numbers will just be impossible to police and punish. Unfortunately, the challenge is to actually get people to do this collectively, especially when we aren't told of any successes of this happening elsewhere.

Although we are beginning to see encouraging signs that this approach, no doubt born through impatience and exhaustion, is beginning to happen.

Chapter Events

Good day everyone,

We here in the **Calgary Chapter of Vaccine Choice Canada** have started a **Weekly Candlelight Vigil for the Vaccine Injured and Deceased**.

Please invite anyone and everyone that you believe will benefit from a peaceful Candlelight Vigil

**every Thursday night, 7 pm MST at
Tompkins Park, 17th Ave and 6th St SW
Calgary.**

Feel free to bring extra candles if you would like.
Come and sign the memorial book. We will be
reading out names of the Deceased, with peaceful
background music.

Have a very blessed day.

Survey Results

from Last Week

How many in your circle of friends and family have been injured or died following the CV injection?

Thoughts and observations:

- Most of my family have received the injection. I am the only one who hasn't. I am thankful so far that most have not experienced anything negative with their health yet.

- My two daughters and their husbands and my grand daughter were sick for months after the vaccination. I also know a couple of friends who became sick after 4th and 5th vaccinations.
- 4 is the actual #
- My answer covers two groups. None of my friends have taken the injection, and are still alive. Only one relative had passed suddenly in Dec. 2021, a number of weeks after the 2nd injection. I waited a year before inquiring whether the jab was taken.

Know Your Rights

You have the right to:

- Fire your doctor
- Refuse or ask for medications
- Get Fully Informed Consent - physicians must inform patient of all risks, benefits and alternatives to medication and treatments
- If able, leave hospital even if against medical advice (AMA)
- Instruct hospital case manager to prioritize patient transfer

Informed consent disregarded?

- If inadequate or no informed Consent discussions occur between patient and physician, then request an Ethics Committee Consult (see detailed instructions at ProtocolKills.com and contact Hospital Hostage Helpline for help).
- The Ethics Committee Consult addresses the following tactic: insufficient or no informed Consent communication between the patient and the ONLY person who can write orders or direct treatment — the physician.
- Do NOT waste valuable time discussing patient's treatment with nurses, Risk Managers, Chief Nursing Officers, CEO's, etc.- they cannot write orders for the patient or direct the patient's treatment.
- At the Ethics Committee Consult meeting: know your role (as the patient or surrogate or the medical Power of Attorney) and BE ASSERTIVE

Hospitalized? Know their manipulation & tactics

- Repeated PCR Testing
- Vaccine harassment
- Fear and Isolation (push to isolate in ICU)
- Push for monetized CDC Covid protocols: test, vent, sedate, Remdesivir
- Treatment stall tactics - physician stops giving updates
- Denial of food and water
- Coerce to delay discharge (patient made to believe must stay hospitalized longer than patient desires)
- Push for Do Not Resuscitate (DNR)
- Push for end-of-life palliative care A.K.A. comfort care, hospice care
