Message From Ted

Dear VCC Community,

I believe we are experiencing the **‘Great Shift’**. Unlike the Great Reset, this shift is a welcome benefit to humanity. I suggest we are in the process of growing up and taking on the responsibility of creating the kind of society we want for ourselves and our children. It has not been an easy process, but birthing has never been easy.

Not unlike the caterpillar metamorphosing into a butterfly, we too are in the process of an upgrade. Not all will make the transition. Possibly only a small minority of humanity will make the great shift. But I believe there is enough of us to birth a new human society based on truth, sovereignty, responsibility and accountability. Below is a sampling of the shifts I’m witnessing:

Shifting From	Shifting To
Describing the problem	Identifying the solution
Gathering information	Taking action
Reaction	Creation
We need to ...	I need to ...

“When it comes to the issue of government messaging and COVID-19 vaccines, it would appear that most courts have not questioned the messaging of governments,” Bennett stated in his ruling. “History has taught us that governments and the media does (sic) not always act in a manner that promotes public health.”
