

# **CHOICE INSIDER**

**April 19, 2023**

## **Message From Ted**

**It was another week of testimony at the National Citizens Inquiry, this time in Winnipeg. Once again, the testimony was heartfelt, compelling, and disconcerting. I have to admit that I'm struggling with my anger and my disappointment in humanity.**

In the words of Mary Holland, President of Children's Health Defence – *“Everything I thought should work did not – there was no transparency, no informed consent, no compensation for civil wrongs, no malpractice for administering knowingly dangerous substances, no accountability – and even no access to the courts, let alone justice.”*

Every system of accountability, regulatory agency and oversight failed us. I thought we had the protections of our Charter, legislators, public health, CDC, independent media, and courts, but all of them went missing in action. Most disturbing is how our families, friends, and colleagues turned from loving and trustworthy individuals into agents of state control. It's alarming that human relations departments, unions, and courts not only turned a blind eye to the tyranny, but aided and abetted the dismantling of families, livelihoods, and community.

My trust in much of humanity has been broken. I can now imagine what it must have been like for our First Nations people when their children were taken from them and placed in residential schools and their way of life destroyed. Or the pain of Japanese Canadians or Jews in Nazi Germany as their community turned on them.

Humanity has some reckoning to attend to. We need to do some deep reflection to understand how we were so vulnerable to turning on one another and how we were able to act with such callous disregard. As with previous acts of massive harm, we desperately need a process of truth

and reconciliation. The NCI is a process of providing the truth. The reconciliation, however, will need to happen in the hearts of each man and woman who participated in the violation of our fundamental rights, freedoms and dignity. We must not continue as if nothing has happened. These transgressions must be sincerely owned and a call for forgiveness made.

Ted

**Denis G. Rancourt,  
PhD**

## What the Latest Research on Covid Vaccines Reveals

Denis G. Rancourt PhD is a Scientist, Social theorist and Researcher at the Ontario Civil Liberties Association. He is an outspoken media commentator who has published widely in the fields of medicine, geopolitics and social theory. In his 2020 interview with VCC, Dr. Rancourt shared the research showing that masks don't work. His latest research reveals that

the vaccine-dose fatality rate from covid vaccines increases exponentially with age and is close to 1%. This suggests that the elderly should never have been prioritized to receive these vaccines. The study authors estimate a global total of approximately 13 million deaths from COVID-19 vaccines.

**David  
Hilderman**

**The Effects of**

# Increasing Atmospheric CO2 Levels On Our World

David Hilderman obtained a Bachelor of Applied Science from the University of Regina in 1988 and has worked in the electronics industry ever since. In 2022 he was honored to be accepted as a member of the CO2 Coalition, a group of scientists of which about 70% are PhDs from the world's top universities including Princeton and MIT. Central Saanich on Vancouver Island has been David's home for 21 years and is where he and his wife raised two

children.

# Quote of the Week

"So live your life that the fear of death can never enter your heart. Trouble no one about their religion; respect others in their view, and

demand that they respect yours.  
Love your life, perfect your life,  
beautify all things in your life. Seek to  
make your life long and its purpose  
in the service of your people.  
Prepare a noble death song for the  
day when you go over the great  
divide.

Always give a word or a sign of  
salute when meeting or passing a  
friend, even a stranger, when in a  
lonely place. Show respect to all  
people and grovel to none.

When you arise in the morning give  
thanks for the food and for the joy of  
living. If you see no reason for giving  
thanks, the fault live only in your self.

Abuse no one and no thing, for  
abuse turns the wise ones to fools  
and robs the spirit of its vision.

When it comes your time to die, be  
not like those whose hearts are filled  
with the fear of death, so that when  
their time comes they weep and beg  
for a little more time to live their lives  
over again in a different way. Sing  
your death song and die like a hero  
going home."
