Message from Ted

Dear VCC Community,

In her summary of the testimony presented at the Vancouver National Citizens Inquiry, Michelle Leduc Caitlin concludes – “It’s time to stop pretending that the last three years was just a mistake.” I couldn’t agree more. But this is a hard reality to

accept. It means that our elected representatives, public health officials, regulatory agencies, judges, and mainstream media have all conspired to deceive us.

The bottom line is – they did. The evidence is beyond compelling that all of these agencies, institutions and representatives knew that the fear they were promoting was a fiction; that the measures imposed had no basis in science; and that the agenda was not about our health and well being.

Rocco Galati advised me years ago that governments are the most dangerous organizations in the world. It is governments that commit massive fraud, theft of its citizens, and engage in genocide. In last week's interview with Rocco he listed the numerous times the Government of Canada has acted in racist and criminal ways against First Nations people, but also Canadians of

Japanese, German and Italian descent, and religious groups such as the Doukhobours.

The tyranny of the last three years is not new. However, it is now so egregious that it is hard to ignore. I suggest that this is necessary for our healing. It is only when we recognize that something is broken that we can fix it. And fix it we must. I don't want my children and grandchildren to live in this abusive relationship (see meme below). It's time to set aside our fear and do what needs to be done. We have work to do. If we don't protect truth, freedom and the rule of law, nothing else matters.

Ted

Homeopathy as a First Line Preventative and Treatment for the Whole Family

Dr Shuli Krakauer knew since childhood that she would pursue a career in veterinary medicine. She graduated from the Ontario Veterinary College in 1997 and practiced first in a rural setting and later in a busy Vancouver emergency clinic. Seeing the limitations of conventional veterinary medicine led Dr Krakauer to explore acupuncture

and homeopathy. She completed a four year homeopathy program in 2000 and opened the Roving Veterinary Housecall Service.

“Homeopathy has enriched my life beyond what I would have imagined, and has given me tools that have confirmed my belief that deep healing is always possible.” Dr Krakauer recently re-located to Slocan, BC.

Quote of the Week

"The lesson of the Holocaust... is that for most people, "morality" is not a matter of principle, but rather of adopting what they perceive to be the dominant group ideology – even if that ideology is marked by wanton irrationality or brutal inhumanity."
