Message from Ted

Dear VCC Community,

In August 2022 Dr. Michael Yeadon wrote – *“Everything that’s happened and is happening becomes much simpler and it all makes sense, only when you force yourself to think the impossible. If you experimentally adopt the position that OUR GOVERNMENT IS ACTIVELY WORKING TO HARM US, TO DISMANTLE MODERN SOCIETY & ENSLAVE ALL PEOPLE IN A DIGITALLY CONTROLLED*

TOTALITARIAN WORLD, it all fits.”

Dr. Yeadon wrote this under the title
– **The Most Important Single
Message I’ve Ever Written.**

I share this now as I suggest Dr. Yeadon’s words are an accurate portrayal of our current state of affairs, and the last twelve months have only added further evidence that our governments are the biggest threat we face today. This is rather alarming for those of us who grew up thinking we were fortunate to be citizens in one of the best countries in the world. And the threat isn’t limited to our governments. It now pervades all of our major public institutions: all levels of government, legacy media, universities, big corporations, public schools, public health authorities, law enforcement, professional regulators and, increasingly, the courts.

I have to admit that some days I’m still in a state of disbelief. It’s hard to fathom that the very foundations of our civil society could have evaporated so easily with only a

relative handful of people in visible opposition to the tyranny. We don't want to accept that evil exists. I have no doubt now that evil exists and will have its way with us unless we see it for what it is and call it out.

We have work to do. We have to rebuild our society based on a foundation of individual rights, responsibilities and freedoms including the freedom to speak, assemble, dissent, bodily sovereignty and the right to evaluate the level of risk we are willing to take for ourselves and our children. And these freedoms must prevail regardless of any perceived state of emergency, otherwise we will live in a constant state of emergency.

What is required is for us to stand firm and refuse to comply with tyranny, no matter the consequences we may experience. This defender of freedom lost his license to practice medicine because of his commitment to ethical medical and individual choice. This doctor states that if he knew he would lose his license as a

result of standing up to tyranny, he would do it again because he refuses to bow to tyranny. [WATCH HERE](#)

There are two paths we can travel – freedom or tyranny. I choose freedom.

Vaccinations for babies within the first few minutes of life are just one danger babies face in the technocratic birth services industry and we will be discussing the shockingly high rates of unnecessary interventions, risky inductions, life-altering surgeries, and an astounding rate of trauma and PTSD. We will then be talking about the better options and how they are statistically safer.
