Message from Ted

Dear VCC Community,

There is a full on assault against wise and ethical doctors. We are seeing this in Canada with the CPSO's efforts to strip Dr. Mark Trozzi of his medical license this week. But this assault is happening globally. Last week in my message I featured a video of Dr. Michael Huang, a brave physician in California who treated vaccine-

injured patients and wrote vaccine exemptions. As a result of his efforts and ethics, the state of California shut down his practice. Dr. Huang recorded this heartbreaking **3 minute video** as he walked through his now empty office.

I have transcribed the words from his video because Dr. Huang's message and his commitment to truth and liberty is so inspirational that it must be shared.

"This used to be my office. This is what happens when you decide to speak up, speak the truth, treat patients, and protect their job, help kids come off face masks. This is what happens when I say no, I will not hurt my patients.

I will do the right thing. I will tell people that this COVID disease is easy to treat. That the mask doesn't work. It is a tool to scare people

But, this is what I get – an empty office. Closing my practice.

The state licensure, I don't care which state, maybe Idaho, Texas,

Florida, they are all captured. If you ask anybody, and any government agency in the US, pretty please, can I have a license to practice medicine, It's like asking the Mafia, pretty please, let me open up a hot dog stand and sell hot dogs. Eventually they will shake you down for money.

If I ever practice medicine again, I will not ask any government agency for licensure because they are not to be trusted. This is very sobering.

Sad. But, am I proud to have done what I did the last three years? Hell yah!

If I knew that my office would look like this in three years, you tell me and show me this video and say hey, see that family right there, they need your help. If you were to see them, this is what your practice will look like. What will you do?

I would do exactly the same thing I did in the past three years. Because I'm proud of it. I'm here to defend my liberty, my freedom, my patient's

medical autonomy.

I refuse to bow down to tyranny.

I refuse to bow down to threat and intimidation.

This chapter ends, and another chapter will begin. And, will I ever practice medicine again? If I do, it will be different.

Everybody, stay strong, live long and prosper."

We are in a war where everything good is deemed bad, and evil is deemed good. Tucker Carlson assessed it correctly this week when he stated – *"You don't get punished for lying. You get punished for telling the truth."*

While telling the truth has consequences, like Dr. Huang, I refuse to bow to tyranny. I applaud you all for standing up and being strong in this battle for truth.
