Education, Healing and Inspiration

Message from Ted

Dear VCC Community,

With the announcement of hostilities in the Middle East we are once again confronted with a fearful and confusing narrative. We are told that Hamas terrorists successfully overcame Israeli border controls and strategic air defenses and invaded Israel killing innocent people. A

terrifying story that evokes a strong reaction. My question is – Is this story true? Are we certain its true?

The same agents who lied to us about COVID and the safety and efficacy of the vaccines are now telling us this is an unforeseen and unprovoked war. It may well be, however, these agents and sources have not been trustworthy messengers in the past.

The bottom line is that those of us who rely on mainstream media and government agents for our information do not know what is true and what is fiction. We have been massively deceived with virtually every major historic event. Each of these have one element in common – they evoke a strong reaction and invite, even demand, an immediate solution. Those who do not agree with the solution are also considered enemies of all that is good and virtuous.

There is a saying that warns – If you don't think for yourself, someone will do it for you. Be wary of those who

want you to take the advice of another rather than decide for yourself. Ultimately it is our responsibility to gather information and utilize our common sense and critical thinking skills. Be wary of those who want to erode or deny personal decision-making and instead have you blindly follow the dictates of others.

Behavioral scientists have long known that fear makes people compliant with authority. As such, fear is an indispensable social engineering tool. Fear based emotions shut down our ability to think critically, which is exactly what they want. Be wary of propaganda that has the effect of creating division. If you feel fear, shame or guilt, it's likely propaganda whose agenda is beyond what is being presented. I invite you to be discerning as we engage this new global event.

Ted

VCC Live Broadcasts

VCC - CHA Live Wed

Panel of Experts

**The 5G / EMF Threat & What We
Can Do About It.**

Join this very important discussion with our panel of experts who will update us on the 5G / EMF threat and how it is increasing, the growing health risks and how we can protect ourselves. The panel includes Canadian EMF expert Paul Pasternak, Dr. Stephen Malthouse who has been working on stopping Dr. Bill Code and Dr. Barry Breger. The panel discussion will be followed by a live audience Q&A so bring your comments and questions.

Digging into the Benefits of Vitamin D

As a life-long student of human physiology, James has long acknowledged the benefit of Vitamin D to our health. With the advent of Covid-19, the role of Vitamin D has been a subject of increased interest since all over the world research has revealed that severe infections, hospitalizations and deaths were directly (inversely) related to the serum levels of Vitamin D. Let's dig in to learn about how Vitamin D was designed to work synergistically with other nutrients to bolster our immune

system and how best to incorporate it into our supplements regime.

Peace Begins With Me

Author - Ted Kuntz

A continuation of the six

ways
I fed my negative wolf.

Living in the Past or Future

When I reflected upon my life I realized I spent very little time in the present. Most often my attention was focused on imagining my future or recalling my past. My mind was almost always thinking about something other than what I was doing at the time; my mind was someplace other than where I was physically. I'd sit in a chair in my living room yet my mind wasn't in the

living room at all. It was elsewhere imagining tomorrow's events and dreaming about possible outcomes I might experience in the future. Or I'd be recalling past events that occurred in previous days or years. I noticed my mind and body were rarely in the same place at the same time.

Author Eckhart Tolle brought this notion of presence to my awareness through his book, **The Power of Now**. Tolle states most people miss out on the present because they live in the past or the future. Tolle asks us to notice where we spend our time. He very effectively captures this message in the following quote:

Most people live almost exclusively through memory or anticipation.

Both are illusions.

Unease, anxiety, tension, stress, worry, all forms of fear are caused by too much future and not enough presence.

Guilt, regret, resentment, grievance, sadness, bitterness, and all forms of nonforgiveness are caused by too much past and not enough presence.

Where do you live? Past, present or future?

SPECIAL OFFER

Upcoming Events

STAND UP FOR TRUTH AND FREEDOM

A symposium to address issues of concern...

❑ Canadians have not been informed of potential risks of the Covid -19 shot.

Scientists and doctors worldwide have expressed concerns regarding the novel mRNA Covid-19 injection, a genetically engineered medical treatment. Any and all requests to discuss such concerns with Health Canada and Justin Trudeau have been ignored, while Canadians are told the shot is "safe and effective".

❑ Scientific findings and dissenting voices have been censored.

The doctors and scientists speaking publicly about their concerns are denigrated and censored. Doctors who have offered patients informed consent have had their licenses to practice suspended by CPSO.

❑ Fundamental rights and freedoms are being eroded!

A case expected to reach the Supreme Court is a challenge against CPSO by the doctors regarding their right to fully inform patients of their fundamental right to choose or refuse any medical procedure.

Saturday, Nov. 4, 2023
2:00 – 5:00 PM
