## Message from Ted

Dear VCC Community,

Last week I had the opportunity to spend three days in Savannah, Georgia at the Children's Health Defence 'Rise and Resist' conference. I took advantage of the

opportunity to engage in conversations with many of the leaders in our truth and freedom movement – Catherine Austin Fitts, Dr. Paul Thomas, Dr. Pierre Kory, Dr. Brian Hooker, Polly Tommey, Mary Holland and others. I took in a morning of updates from the CHD legal team on the dozens of lawsuits currently underway to restore rights and freedoms and to hold offenders to account. And I got to be fortified by the resilience of Vera Sharav, a holocaust survivor and truth teller, and the wisdom of Bobby Kennedy Jr.

My take away from these encounters is that while there are many reasons to be discouraged, there are many more reasons to be hopeful.

Humanity is going through a transformation; a type of birthing. I suggest we have learned the hard way that we handed over far too much authority and responsibility to a

small cabal who perceive themselves to be the 'elite', whether they be doctors, public health officers, legislators, or even judges. The result is that we've allowed our rights, responsibilities and morals to be eroded and compromised. The consequences of this erosion are all too evident with vaccine mandates, unlawful courts, corrupted law enforcement, confused teachers, deceptive media, and compliant and complicit legislators.

And yet, I see a transformation in the works, a phoenix rising out of the ashes. Like Garthe Icke stated in his essay below, I refuse to give in, and I refuse to give up. I refuse to accept that we are here solely to fight among ourselves. I experienced this steadfast resistance during the conference.

The awakening is coming and humanity will prevail, because we won't stop until it does. This is our

time to rise and reclaim what is rightfully ours and to defeat the evil which has no regard for life, liberty, or God.

Let's embrace this responsibility joyfully. It is an honour to fight for truth and freedom. Wear your resistance proudly.

## Barbara Loe Fisher

### **Barbara Loe Fisher and the National Vaccine Information Centre**

Barbara Loe Fisher is co-founder and president of the National Vaccine Information Center (NVIC), a non-profit charity she founded with parents of vaccine injured children in 1982 to prevent vaccine injuries and deaths through public education. For the past four decades, she has led a national, grassroots movement and public information campaign to institute vaccine safety and informed consent protections in public health policies and laws. She is a researcher, author, consumer

advocacy expert and the mother of a vaccine injured child.

## Feeding the Positive Wolf - Use Your Imagination Creatively

If you wish to create, two actions are required – intention and attention. Intention means being able to answer the question, “*What do I intend?*” or “*What does success look like?*” It means having clearly identified the desired outcome before one begins.

The action of attention involves the focusing of one's awareness. *"What am I attending to? What am I focusing on? What am I looking at?"* A focused attention is critical to achieving the outcome we desire.

Often when I present this strategy I'm told this idea is new age thinking. In truth it is old age thinking. The act of imagining the outcome one wants is an idea that has been around for thousands of years. Most people are aware of the Dead Sea Scrolls that were discovered in the Middle East in the 1950's. These ancient scrolls have since been translated to disclose their contents. In one of the scrolls the question is asked, *"How do miracles happen?"* The answer that follows is, *"If you want to create a miracle two actions are required. The first action is to see in your mind's eye what you want to create. The second action is to feel what it would feel like to have this event*

*occur. When you combine the seeing and the feeling, miracles happen.”*

This is my experience also. I have discovered my imagination is very powerful and have experienced many miracles. Let's clearly imagine the kind of world we want to live in.

### The Awakening is Coming - Gareth Icke

As the COVID narrative fell apart, the world showed signs that it was on the edge of something significant. The mass awakening finally felt like it was something more than a hope and a dream.

# Remembrance Day Message

**In BC Health Care  
Fields**

In BC Hospitals, Emergency Rooms  
close,  
Patients suffer greatly while  
bureaucrats doze.  
Health Care Professionals, over  
10,000 I'm told ,  
Stand by idly, their professional lives  
on hold.

May we salute and honor them also,  
on this Remembrance Day,  
Those who have suffered greatly in  
many many ways.  
Very few know because the Press  
won't say,  
How many are leaving for greener  
pastures far away.

Please share with anyone who might  
listen,  
The stories on the CSSEM.org  
website, that truly glisten....  
With hope and encouragement of  
what you can do,  
And show the might and the power of  
we who are so few.

May this torch of hope you hold so  
high,  
Be passed from friend to friend so it  
doesn't die.  
We will not rest until the truth be  
won,  
And Health Care Professionals  
return to work is all but done.
