Education, Healing and Inspiration

Message from Ted

Dear VCC Community,

The more I investigate our medical system the more concern I have. The issue is much larger than vaccines. These concerns were reinforced after reading **'Rising From the**

Dead' by Dr. Suzanne Humphries. Humphries states: *"If you dare to look – you will find overwhelming evidence that the medical system is not really about health, science, or truth. Core to its survival is political policy which puts payment and profit before a patient's best interests."*

This caution is reinforced in **Dr. Mark Trozzi's newsletter** - *"The revocation of my medical license by the unyielding College of Physicians and Surgeons of Ontario raises concerns about Canadians' access to ethical and scientifically sound physicians. The CPSO's lack of scientific and ethical integrity in their case against me is evident."*

And then there is Laura Hayes' article entitled – **'Vaccines: What Is There to Be Pro About?'** where Hayes exposes the fraudulent and criminal basis of the entire vaccine paradigm.

It's disturbing to think that we are being intentionally and systematically poisoned by our '*health care system*', but the evidence is irrefutable. Health doesn't come from a pill, a needle or a knife. And it clearly will not come from a system where profit dictates policy.

It's time for a transformation in healthcare, and the voice of those of us who are vaccine risk aware are needed more than ever.

Ted

Peace Begins With Me

Author - Ted Kuntz

Tool #4 - Choose What Does the Most Good

Each of us has the capacity for choice. We can choose not only our behaviours, but also our thoughts and in doing so determine our experiences. I observe most people fail to fully embrace the power of choice. They behave as though they have no choice.

I have come to understand I have the capacity for choice in each and every moment; that ultimately I'm

responsible for the experiences I have in my life. While I cannot always control the events in my life, I am responsible for my response to these events. I am responsible for the meaning I assign to these events. The word responsibility contains this message. It means having the ability to respond. When I'm being responsible it means I am 'response – able'. Believing I have no choice says I am not 'response-able'.

Anger, sadness, and other forms of distress are ways of responding to events in life among many possibilities. If I wish more peace, happiness and joy, it is ultimately my responsibility to choose these experiences.

"Evolution is a growing participation in responsibility."

COVID-19 Vaccines Caused More Deaths Than Saved

The Epoch Times - The estimated harms of the COVID-19 mRNA vaccines reveal for every life saved, there were nearly 14 times more

deaths caused by the modified mRNA injections.

READ

GAME OVER for the mRNA-based "vaccine" technology

1. This is what they tell you: **"It's a vaccine"**, but that's not true

Here are the **FACTS**

- ▶ It's not a "vaccine", because it meets all the criteria of a **genetically engineered product**^[1]. It contains synthetically produced modified mRNA packaged within lipid nanoparticles that have the ability to transfect our cells.
- ▶ It's not a "vaccine", because it **circulates in our body and in our cells without being noticed as foreign** – unlike the particles of conventional vaccines^[2].
- ▶ It's not a "vaccine", because in 2021, the purpose of vaccination was revised and its definition changed. According to the new "standard", "vaccines" do not need to create immunity specifically against a disease, but are only required to elicit an immune response, even if this response is **non-specific or adverse**^[3].
- ▶ It's not a "vaccine", because upon entry into our cells, the **modified mRNA hijacks our cells** to force them to produce foreign proteins, the nature of which is partially unpredictable^[4].
- ▶ It's not a "vaccine", because after receiving a mRNA-based injection, we are initially still considered "unvaccinated". It will take another **two weeks before any medical authorities will consider you as "vaccinated"**. As a result, reports on adverse events (including hospitalization and death) that may occur within those first two weeks post-vaccination will simply not be counted, if reported at all. Likewise, it is difficult to argue for any claims for compensation.
- ▶ It's not a "vaccine", because you are intended to receive boosters on a regular basis. These repeated injections lead to the **non-stop production of the antigen**, possibly several antigens^[4]. This differs from a natural infection, in which the antigen invades our body occasionally and transiently. This ongoing presentation of the same antigen inevitably weakens our immune system^[5].

Exposing the Truth About mRNA Vaccines

A downloadable PDF on the subject of *"What they tell you, and what the truth is"*. This information is about the mRNA-based 'vaccine' technology and was produced by **The Society of "Medicians and Scientists for Health, Freedom and Democracy, e.V."** Their German website

is: <https://www.mwgfd.org/>. They are an association of people and scientists working in the medical profession who engage in research and teaching on the topics of health, freedom and democracy who came together during the Corona crisis to criticize the excessive restrictions.

**Legal Proceedings
Update**

Update on Motion to Strike VCC Legal Proceeding

The Superior Court of Justice of Ontario hearing scheduled last week to consider the governments motion to strike the legal proceedings of Vaccine Choice Canada against the Governments of Canada and Ontario from July 2020 lasted all of 15 minutes. The Judge immediately recused himself because of a potential perceived lack of impartiality stating that he is a former colleague and personal friend of Christine Elliott, the Ontario Minister of Health, one of the defendants in the proceedings. A new judge will be assigned. The judge announced that the next available court date is May 2025. The good news is the Judge recused himself prior to the hearing rather than wait until this may have been

exposed. Also good news is that the government's efforts to have our legal proceedings struck has been delayed, However, justice delayed is justice denied.

Actions of the Week

Attend Dr. Hoffe's Hearing
