

## 14. Where Can I Get More Information?

Below is a short list of books, DVDs and online resources to assist you in becoming better informed on vaccine issues. This information can be accessed or downloaded on the VCC website with the QR code provided on this page or by using this link: <https://vaccinechoicecanada.com/new-parents-guide/>

### Books

#### **Vaccines – A Reappraisal** - Richard Moskowitz MD

A truly wonderful book on why the vaccine process, by its very nature, imposes substantial risks of disease, injury and death that have been persistently denied by the vaccine industry, vaccine policy makers and the medical profession. It is without a doubt, the most important book on this topic that has been published in many years. Dr. Moskowitz draws on 50 years of general medical practice caring for children and adults.

#### **Vaccine Safety Manual** - Neil Z. Miller

This bestselling guide to common childhood illnesses and vaccines evaluates each vaccine for safety, efficacy, and long-term effects. Impeccably researched and referenced, it contains the most comprehensive, up-to-date, uncensored data available – information that many doctors don't even know. In addition, health alternatives are offered, along with legal options to mandatory shots.

#### **Dissolving Illusions** - Suzanne Humphries MD, and Roman Bystrianyk

Dissolving Illusions details facts and figures from long-overlooked medical journals, books, newspapers, and other sources. Using myth-shattering graphs, this book shows that vaccines, antibiotics, and other medical interventions are not responsible for the increase in lifespan and the decline in mortality from infectious diseases. A 10th Anniversary Edition has been published in 2024.

## Books

### **Vaccine Illusion** – Tetyana Obukhanych Ph.D.

In the debate over vaccine safety we have lost sight of a bigger problem: how vaccination campaigns wipe out our herd immunity and endanger the very young. Written by an immunologist, Vaccine Illusion explains why vaccines cannot give us lasting immunity to infectious diseases and how they jeopardize our natural immunity and overall health.

### **Vaccine Epidemic** – edited by Louise Kuo Habakus, and Mary Holland, JD

Vaccine Epidemic focuses on the searing debate surrounding individual and parental vaccination choice. Public health officials state that vaccines are safe and effective, but the truth is far more complicated. Coercive vaccination policies deprive people of free and informed consent – the hallmark of ethical medicine. This is an essential handbook for the vaccination choice movement and required reading for all people considering vaccination for themselves and their children.

### **Saying No to Vaccines** – Dr. Sherri J. Tenpenny MD

This most comprehensive guide explains how and why vaccines are detrimental to you and your child. Dr. Tenpenny is the first physician to offer documented proof that vaccines compromise the immune system.

### **Immunization – The Reality Behind the Myth** – Walene James

This is the only book that explores the vaccination issues from a political, ethical, psychological, aesthetic, and spiritual perspective. The author's controversial position is supported throughout the book by the scientific discoveries of researchers who have received little recognition in orthodox medical literature.

### **The Vaccine Book** – Dr. Robert Sears MD

An indispensable and comprehensive guide for parents facing the question – *"Should I vaccinate my child?"* This is an authoritative, impartial, fact-based guide to childhood vaccinations.

### **The Peanut Allergy Epidemic** – Heather Fraser

Essential reading for parents to understand how life-threatening allergies to everyday foods became epidemic. This is a vital, groundbreaking book that provides compelling evidence that allergies, as a mass phenomenon, were ushered in with the introduction and the use of vaccines and injectable medicines.

### **The Vaccine Friendly Plan** – Dr. Paul Thomas MD

Dr. Thomas is a vaccine-friendly Doctor knowledgeable about the latest scientific research, the community's risk for disease exposure, and a family's risk factors, health history and concerns.

### **Vax Facts** - Dr. Paul Thomas MD and DeeDee Hoover

This information-packed guide is for all those asking - *"Should I get my child vaccinated?"* who want more than just a yes/no answer. After reading Vax Facts, parents and guardians will be able to decide with confidence whether vaccination is the right choice for their loved one.

### **Miller's Review of Critical Vaccine Studies** – Neil Z. Miller

Miller's review of critical vaccine studies contains summaries of 400 important scientific papers to help parents, governments, and researchers understand that vaccines can cause harm.

## Books

### **Dare to Question: One Parent to Another - Ted Kuntz**

Kuntz is the father of a vaccine injured child, now deceased. Kuntz spent 30 years researching the vaccine literature. The book is a summary of his findings as he speaks from one parent to another.

### **Vax-Unvax: Let the Science Speak - Robert F Kennedy with Prof Brian Hooker, Ph.D.**

The book is based on over one hundred studies in the peer-reviewed literature that consider vaccinated versus unvaccinated populations. Each study is analyzed, and health differences among infants, children, and adults who have been vaccinated and those who have not are presented and put in context. Readers will find information on: The infant/child vaccination schedule; Thimerosal in vaccines; Live virus vaccines; The human papillomavirus (HPV) vaccine; Vaccination and Gulf War illness; Influenza (Flu) vaccines; Hepatitis B vaccination; The COVID-19 vaccine; Vaccines during pregnancy.

### **Unvaccinated – Why Growing Numbers of Parents are Choosing Natural Immunity for their Children – Forrest Maready**

An easy to read explanation why parents are increasingly choosing natural immunity over vaccination.

### **Dispatches from the Vaccine Wars - Dr. Chris Shaw**

*'Dispatches from the Vaccine Wars'* is a comprehensive look at the origin of vaccination and the oversight of vaccines by various regulatory bodies in the United States and in Canada. The book provides not only the official view on vaccines safety and efficacy, but also provides a critical analysis on which such views are based. Aluminum and other compounds that may contribute to autism spectrum disorder are discussed at length.

### **Turtles All The Way Down: Vaccine Science and Myth**

The book is intended for parents overwhelmed by conflicting messaging on this important topic, but it is also an excellent reference for medical researchers and professionals who seek a better understanding of vaccine safety science. Whether you are new to the vaccine debate or a "veteran" seeking a deeper grasp of the science, this book is a must-read. It also serves as an excellent primer on vaccination to share with friends and relatives who may benefit from a deep dive into the subject.

### **Raising a Vaccine Free Child – Wendy Lydall**

*'Raising a Vaccine Free Child'* provides parents with a comprehensive guide to the facts, myths, problems, and solutions associated with raising a vaccine free child.

### **The Unvaccinated Child: A Treatment Guide for Parents and Caregivers**

*'The Unvaccinated Child'* reviews the history of germs and how a child's terrain is a better indicator of health or disease to effectively nurture children back to health.

### **Imagine You Are An Aluminum Atom: Discussions With Mr. Aluminum**

- Christopher Exley, PhD, FRSB - Through a series of easy-reading entries written for non-scientists, Exley will educate readers about his lifelong scientific passion: aluminum.

## Books

### **How to Raise a Healthy Child in Spite of Your Doctor** - Dr. Robert Mendelsohn

Dr. Robert Mendelsohn, renowned pediatrician and author advises parents on home treatment and diagnosis of colds and flus, childhood illnesses, vision and hearing problems, allergies, and more.

### **How to End the Autism Epidemic** - JB Handley

J.B. Handley offers a compelling, science-based explanation of what's causing the autism epidemic, the lies that enable its perpetuation, and the steps we must take as parents and as a society in order to end it.

### **Denial** - Don Olmsted and Mark Blaxill

Blaxill and Olmsted, through ground-breaking research, show that the autism rate in 1930 was zero, that autism is new, that the real rate is rising dramatically, and that those affected are injured and disabled, not merely "neurodiverse." They call the refusal to acknowledge this reality, "*Autism Epidemic Denial*."

### **The HPV Vaccine On Trial** - Mary Holland, Kim Mack Rosenberg, Eileen Iorio

Ultimately, this book is not just about the HPV vaccine, but about how industry, government, and medical authorities may be putting the world's children in harm's way.

## DVDs & Videos

### **The Greater Good**

This excellent documentary increases awareness of the vaccine controversy. The film highlights personal stories of vaccine injuries and includes interviews with scientists and medical doctors on both sides of the issue. <https://greatergoodmovie.org/>

### **Vaxxed: From Cover-up to Catastrophe**

This documentary investigates how the CDC, the government agency charged with protecting the health of American citizens, destroyed data on a 2004 study that showed a link between the MMR vaccine and autism. <https://thehighwire.com/ark-videos/vaxxed-from-cover-up-to-catastrophe/>

### **The Truth About Vaccines**

This comprehensive seven-part series offers an in-depth review of the history of vaccines, and a thorough analysis of the various vaccine components. This series examines safety, effectiveness and vaccine recommendations. Included are interviews with dozens of doctors, scientists, and researchers. <https://thetruthaboutvaccines.com/>
