

Urgent Questions from Ted Kuntz, President, Vaccine Choice Canada:

- *Do you know that COVID shots may contain DNA/mRNA that can alter the genetics of your child forever ?*
- *Do you know that according to the CDC's best estimate of disease severity of Covid-19, the rate of survival for those in the age group of 0 - 19 years is 99.99% ?*
- *Do you know the shots are experimental and can cause lifelong injury, infertility, and death ?*

Children trust their parents to know. Their future is in your hands. **Get informed.**
