

* CAVEAT: The vast majority of reports on which this summary is based are submitted by health practitioners. Each report represents the suspicion, opinion or observation of the individual reporter. Cause and effect relationships have not been established in the vast majority of reports submitted. The information contained in these reports to Population and Public Health Branch has not been reviewed as to cause and effect relationship by Population and Public Health Branch scientists. Only a small portion of suspected adverse reactions are reported to the program, consequently this information must not be used to estimate the incidence of adverse events. Reports submitted by pharmaceutical manufacturers are included in this summary. This summary contains unpublished data and is provide to you with the understanding that this data will be used only for your personal use or within your immediate organization.
