HANDS OFF OUR CHILDREN

Compare Canada's Vaccine Schedules

Birth to 18 Years Provincial/Territorial Averages

1950s	14 doses of 5 vaccines
1983	23 doses of 7 vaccines
2020	68 or 70 doses of 16 or 17 vaccines

SUB-STANDARD VACCINE SAFETY TESTING

No childhood vaccine product licensed for use in Canada or the USA has been tested using the long-term, double-blind, placebo-controlled studies required for all other pharmaceutical products. The medical industry uses the monitoring of adverse events following vaccination as the primary method to evaluate safety.

**Our children are injected with products where safety
is determined by the amount of injury or death
reported after vaccination.**

By design, vaccines force the immune system to respond with inflammation which then triggers the brain's own immune cells (microglia) to secrete highly toxic chemicals that lead to a chronically inflamed state in the brain, destruction of connective synapses, seizures, and brain injury.

Are Canadians under a spell?

DO YOU BELIEVE THE VACCINE LIE?

No Liability for Vaccine Injury/Death

Vaccines are the only product where a manufacturer is not legally liable for the injuries and deaths caused by their products. The ultimate result of this legal immunity is that no one is held responsible for the injuries and deaths caused by vaccination.

Do Vaccines Make Children Healthier?

For the first time in history... children are sicker than the generation before them. They're not just a little worse off, they are precipitously worse off physically, emotionally, educationally and developmentally."

~ Judy Converse, Pediatric Nutritionist, MPH, RD, LD

Would You Knowingly Harm a Child?

When will we finally conclude that these state imposed medical interventions do not work and that they in fact harm children? These groundbreaking studies show that unvaccinated children are healthier than vaccinated children - bit.ly/HealthyKidsVCC

STAND UP IN UNITED NON-COMPLIANCE TO PROTECT YOUR CHILDREN!

Covid shots carry **severe risks** including brain swelling, paralysis, sterility, convulsions, and seizures, stroke, narcolepsy, shock, heart attack, autoimmune disease, arthritis, joint pain, blood clots, a multisystem inflammatory syndrome in children, cancer, neurological injury and death. **Covid survival rate for all ages is ~99.85%. Why the shot?**

**COVID Medical interventions, including vaccination,
masking, testing, are VOLUNTARY in Canada.**
