

DO YOU VALUE FREEDOM?

Do you believe in individuals rights, bodily sovereignty, and the right of parents to make medical decisions for their children?

What will you say when your child asks - where were you when they took away our rights and freedom?

These rights and freedoms will be lost for generations, unless we take action and STAND UP NOW IN UNITED NON-COMPLIANCE.

I'M STANDING UP. WILL YOU?

Across Canada for K to 12 students, staff and visitors, policies are being implemented that require masks be worn in all indoor areas, including at desks and on school buses, despite no evidence of masking benefits. There is compelling evidence that masking does cause physical, emotional and psychological harm, especially to children.

The BC government requires health care providers to conceal the health information of 'mature minors' from parents unless the child consents to have their parents informed. **Children as young as 9 years of age have received regular childhood vaccines without parental consent or knowledge.**

Governments are preparing to implement the use of COVID injections for 5-11-year-olds. This means your child could be injected without your knowledge or permission.

Vaccine compliance elicited under threat of coercion, bullying, or suspension of rights and freedoms, constitutes extreme bullying and coercion, and is construed under Canadian Medical Law as a battery.

"Like any other medical treatment, the right to choose does not belong to the state; it belongs to the individual..."

Lawyer, Rocco Galati,
Constitutional Rights Centre

WHAT CAN WE DO?

For a collection of actions we can take, including issuing Notices of Liability, template letters for targeted legal challenges, and making connections with local chapters see <https://bit.ly/ActionsVCC>
