

Dear

I am writing to request your assistance. One of the qualities that make Canada envied around the world is our **Charter of Rights and Freedoms**. These rights and freedoms will only be maintained if we respect and protect them.

Today legislative and other coercive measures are being introduced by various levels of government, educational institutions, and employers to undermine our Charter rights and freedoms. There is a well-orchestrated effort to deprive Canadians of their **right to freedom of conscience and religion**, their legal **right to security of the person**, and their **medical right to informed consent**.

Specifically I am referring to the concerted efforts to make vaccines mandatory in Canada. These efforts are initiated by the medical industry whose goal is to secure the mandating of their vaccine products upon all citizens, children and adults. Their intentions were made clear in a series of advertisements in Macleans magazine with the caption – *"Fighting to make vaccines mandatory"*.

At the same time as the number of recommended vaccines in Canada more than doubled, the health of our children declined significantly. Today, **one in six children** have a neurological or immunological disorder including autism spectrum disorders, learning disabilities, attention deficit hyperactivity disorder, developmental delay, severe mood dysregulation, asthma, and life threatening allergies.

As parents of children who have been harmed by vaccines, including permanent disability and death, we implore you to educate yourself about this complex and crucial matter. The quality of life of Canadians is at risk and our rights and freedoms are being eroded.

Enclosed is a summary of our concerns pertaining to the artificial immunization agenda. We include full references for the statements we make. We would appreciate the opportunity to dialogue with you further on this important matter. We can be reached at info@vaccinechoicecanada.com. To learn more visit our website at: www.vaccinechoicecanada.com.

Thank you for your consideration. We are relying on you to uphold our rights and freedoms.

Sincerely,

Ted Kuntz, Father of Joshua, permanently injured by the DPT vaccine
Vice President - Vaccine Choice Canada

"The civil liberties . . . we shall enjoy them only so long as we value them enough to preserve them."
George W. Brown, Building the Canadian Nation
