

# Our Right to Informed Consent

**Vaccination is voluntary in Canada.**

COVID-19 vaccines are in  
Phase III clinical trials.

**This means all COVID-19 vaccines are  
considered experimental and unapproved.**

The citizens of Canada are protected under the medical and legal ethic of expressed informed consent and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms (1982) Section 2a, 2b, 7, 8, 9, 15**  
<https://www.canada.ca/en/canadian-heritage/services/download-order-charter-bill.html>
- **Universal Declaration on Bioethics and Human Rights (2005)**  
<https://en.unesco.org/themes/ethics-science-and-technology/bioethics-and-human-rights>
- **Nuremberg Code (1947)**  
<http://www.cirp.org/library/ethics/nuremberg>
- **Helsinki Declaration (1964) Article 25, 26**  
<https://www.wma.net/what-we-do/medical-ethics/declaration-of-helsinki/>

## Protect Your Child

## The Mature Minor Doctrine

In Canada, children as young as nine years old have  
been coerced and bullied into receiving vaccines  
without parental consent or knowledge.

The Mature Minor doctrine cannot override the wishes and  
consent of the parents outside of the emergency threat of  
imminent harm or death. Vaccinations do not fall under the  
Mature Minor doctrine.

Vaccine compliance elicited under threat of coercion, bullying, or  
suspension of rights and freedoms, constitutes an extreme  
bullying and coercion and is construed under Canadian Medical  
Law as a battery.

**The administration of a medical experimental treatment, without the informed consent of  
the parent/guardian, is a crime against humanity and is contrary to the Criminal Code of  
Canada, stemming from the Nuremberg Code and Helsinki Declaration of 1960.**
