

Helping You Make an
INFORMED CHOICE  **VACCINE
CHOICE
CANADA**

www.vaccinechoiccanada.com

These regulations flagrantly violate our right to medical privacy, the medical ethic of informed consent, and the right of parents to make medical decisions for their children.

A simple “No thank you” ought to be all that is needed.

We cannot allow these draconian regulations to go unchallenged.

What You Can Do:

1. Become educated about vaccine risk.
2. Join Vaccine Choice Canada.
3. Meet with your MLA - demand he or she defend your rights and freedoms.

BC’s new mandatory ‘Vaccination Status Reporting Regulation’ (Regulation 376) means that it is now mandatory for parents to report the vaccination status of their children. Parents who do not vaccinate according to the recommended schedule will be required to:

1. Provide a written statement providing their reason for not vaccinating.
2. Attend an “information session” together with their child, beginning in 2020.
3. Attend a meeting with a public health officer.

The regulations include threats of fines and/or imprisonment for non-compliance.

Join the families working together to protect your right to informed consent.
