

Victoria Declaration

We present the Victoria Declaration as an expression of our historically recognized divine rights on behalf of all who seek freedom.

The signers of the Victoria Declaration recognize rightly that it is the duty of every human to ensure that fundamental human rights and freedoms are upheld.

Humanity is at a critical juncture because collectively we have failed to grasp the significance of the events unfolding around us and to respond accordingly.

It is time to rise up, speak up and stand firm against tyrannical orders to ensure that future generations may thrive in freedom, health and happiness.
